EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Alex Sousa on Monday, October 2, 2006.

3. **The application has been amended as follows:**

Claim 22, line 16, "ECC" has been replaced with –error correction code--.

4. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest a network configured to transfer data using time-division multiplexing comprising: a first wireless interface including a physical layer interface, an optical transceiver coupled to the physical layer interface and configured to convert an outgoing data stream from an outgoing electrical signal to an outgoing optical signal, and a media abstraction unit coupled to the optical transceiver and configured to reframe the outgoing data stream from the outgoing optical signal to a second outgoing electrical signal suited for wireless transmission, *wherein the media abstraction unit comprises a link quality management unit configured to adapt one or more parameters of the first wireless interface to provide more reliable data transmission, the link quality management unit including, an error correction code encoding unit configured to*
